As this Court is aware, on 9/30/2020, Ms. Rose-Coccia submitted a urine sample which tested positive for fentanyl. Ms. Rose-Coccia adamantly denied the use of any illicit substances. As such, the sample was sent to the National Laboratory which confirmed the presence of fentanyl in her urine.

On 10/28/2020, Ms. Rose-Coccia again submitted a urine sample which tested positive for fentanyl. Initially Ms. Rose-Coccia denied use and then admitted to using fentanyl.

U.S. Probation Officer Action:

In response to the above positive drug tests, U.S. Probation offered Ms. Rose-Coccia placement at an inpatient drug treatment program. However, she adamantly denied the need for same. Following Ms. Rose-Coccia's second positive drug test, she did participate in an intake at the Discovery House but declined medication assisted treatment, as it was suggested that she would be a better candidate for group and/or individual counseling. As such, Ms. Rose-Coccia is scheduled for an intake at AdCare, where she will be evaluated for outpatient group and individual treatment. As the Court is aware, Ms. Rose-Coccia is also presently engaged in Moral Recognition Therapy (MRT) on a weekly basis.

Ms. Rose-Coccia submitted drug tests on November 3, 2020 and November 12, 2020, both of which were negative for illegal substances. In light of Ms. Rose Coccia's willingness to engage in substance use treatment, U.S. Probation is not requesting any Court intervention at this time. U.S. Probation will continue to monitor Ms. Rose-Coccia's sobriety closely and will notify the Court of any additional positive drug tests or any other noncompliance.
